

# PREMIUM PERFORMANCE AND ULTRA-PORTABILITY DESIGNED FOR SUCCESS

For more than three decades, Portégé laptops have provided the resources for businesses to stay ahead of the competition. The Portégé portfolio delivers the power, performance and security features packed into a premium, professional design. Keen on the importance of security, all Portégé X Series laptops incorporate a unique collection of hardware, software and biometric components providing leading-edge security to help protect critical data. Portege is the perfect laptop for the next business challenge.

## KEY FEATURES

### NEW AGE COMMUNICATION

Connect, collaborate or present with colleagues or clients anywhere via the Portégé X Series high definition web camera with noise-canceling dual microphones for outstanding audio and visual quality. A world-facing camera is available on select models to capture official forms and take photographs digitally.

### LAYERS UPON LAYERS OF SECURITY

As a leading secured-core PC provider, Dynabook equips these Portégé laptops with a robust combination of next-level hardware, software and identity protection - including enterprise-grade encryption and authentication using biometrics - to enhance resistance to current and future cyber threats. Dynabook writes its own proprietary BIOS to provide a unique security foundation as an additional layer of protection against attacks.

### MOBILITY EXPERTS

Dynabook has perfected the ability to shrink, lighten and streamline its laptop designs without compromise. With select models starting at less than 1 kg, there is a good chance the Portégé is the lightest device in your bag.

### MODERN BATTERY LIFE

Mobile professionals need a reliable device to move freely throughout the day with confidence. Using the latest battery technology and power management enhancements, these Portégé laptops extend beyond the work day on a single charge. If a charge is needed, the battery can be replenished up to 40-percent capacity in just 30 minutes utilizing Dynabook's quick charge feature.

### BENEFITS OF WINDOWS

Equipped with Windows 10 Pro, featuring enhanced data protection, encryption and productivity tools, these Portégé laptops easily integrate into any network environment, existing security protocols and ensure compatibility with legacy software and future applications.

### CUTTING-EDGE PROCESSOR AND GRAPHICS PERFORMANCE

Featuring the new 11th Gen Intel® Core™ Processor and Intel® Iris® Xe graphics engine, Portégé laptops deliver unmatched speed and intelligence with a new level of graphics capabilities to enable boundary-breaking performance and remarkable responsiveness.

### HIGH BRIGHTNESS DISPLAY

These premium laptops offer a variety of displays, including touch, anti-glare, high-brightness and privacy screen options. Available on select models, the Dynamic Privacy Display narrows the viewing angle and protects confidential information from prying eyes.

### MODERN NOTETAKING

Delivering a true pen-to-paper experience, the digital inking capabilities of the Portégé X30W sets it apart from the competition and allows professionals to take accurate notes, sketch concepts, complete forms and capture signatures on a single device to increase overall productivity.

### IN-HOUSE ADVANTAGE

Dynabook is the only major PC vendor to employ an in-house approach for its laptops in design, engineering, manufacturing and testing to ensure each laptop delivers superior quality and reliability
