WHY IT WINS

PERFORMANCE FOR MAXIMUM PRODUCTIVITY

The Portégé X40-J benefits from the massive performance boost and enhanced efficiency delivered through the 11th Gen Intel® Core™ processor and Intel® Iris X® graphics. Configurable up to 48GB of dual-channel memory and reinforced with ultra-fast SSD storage (up to 1TB), Wi-Fi 6 (Gig+) and Thunderbolt™ 4 certified USB Type-C ports, the Portégé X40-J offers relentless performance that is up for the most complex tasks.

SECURITY TAKEN SERIOUSLY

As a Windows Secured-core PC, the Portégé X40-J is among the most secure Windows PCs in the world, featuring the latest mix of hardware, software, and biometric protection technologies, plus an added security layer within Dynabook's proprietary BIOS. The Portégé X40-J is ideal for mission critical users in even the most data-sensitive industries.

ALL DAY PRODUCTIVITY

The Portégé X40-J features a new powerful battery providing enough power to last well beyond the typical workday. When not in use, Dynabook's Sleep & Charge technology keeps a USB port powered, allowing the laptop to charge a smartphone and other accessories.

CONNECT AT A NEW LEVEL

Beyond its new, ultrafast Thunderbolt™ 4 certified USB Type-C ports, the Portégé X40-J features a mix of fullsize ports, including HDMI and USB-A (with Sleep & Charge) for adapter-free wired connectivity. To maximize the benefits of the laptop in an office environment, Dynabook offers multiple docking solutions that seamlessly connect multiple external displays, as well as a variety of other USB and USB-C accessories with a single cable connection.

ENGINEERED FOR LASTING DURABILITY

The Portégé X40-J is designed to provide years of worry-free operation in even the most grueling work environments. Easily holding up to MIL-STD-810G standard testing methodologies for strength and durability, its new aluminum-based design is tough, stylish and defends against the rigors of modern mobility.
